## Tecnovati sold their 200th Proliner for Prodim

Tecnovati, located in Poggibonsi is the official dealer for Prodim's products in Italy. Tecnovati has been a reliable partner for years now and they have grown to become real Proliner experts. Like every year they are part of the Prodim-team at the Marmomacc fair and we used this opportunity to congratulate them with the sale of their 200th Proliner set.

We surprised them with a symbolic 'golden medal' printed with our own [Prodim 3D printer](#) of course.
